OBJECTIVE

Dedicated IT student seeking a QA Intern role to apply hands-on school project experience in manual testing and writing test cases. Combines team leadership from a game development project with a sharp visual eye from creating multimedia design layouts. Highly motivated to learn new industry tools and testing methodologies while contributing to the team by catching functional errors and visual design inconsistencies.

TECHNICAL & SOFT SKILLS

- Testing Skills:**
- Manual App Testing, End-to-End Testing, System Walkthroughs, Bug Reporting.
- Coding & Web (Basics):**
- HTML5, CSS, Java, C, C#, MS SQL.
- Platform & Design Tools:**
- Figma, Adobe Photoshop, Canva, Jira, Google Workspace, Microsoft Office.
- Soft Skills:**
- Active Learning, Teamwork, Attention to Detail, Project Documentation.

APPLICATION & PROJECTS

Capstone Project: “Bawat Tala”	<i>CAP1 – Capstone Project and Research 1 Pamantasan ng Lungsod ng Valenzuela January – May 2026</i> Role: QA Tester, Documentation Lead, Assistant in Design Lead. Conducted manual end-to-end testing and executed custom test cases to validate user workflows and interface components, while simultaneously managing the project's comprehensive technical research paper. Result: Successfully defended the project layout and core features before a panel of evaluators, clearing the requirements to proceed to Capstone 2.
Final Project: “GoVoice: Enhancing Customer Satisfaction Feedback in Valenzuela City”	<i>CC106 – Application Development and Emerging Technologies Pamantasan ng Lungsod ng Valenzuela August – December 2025</i> Role: QA Tester & Documentation Lead Conducted manual end-to-end testing to identify functional errors and interface flaws, while systematically tracking user workflows and test execution results within the project documentation. Result: Successfully completed the course requirements after the application achieved a “Very Good” rating from IT experts and faculty, adhering to ISO/IEC 25010 technical standards.
Game Development Projects	<i>PT102 – Digital Game Design Development Pamantasan ng Lungsod ng Valenzuela August – December 2025</i> Role: Project Manager/Project Lead Directed a student development team through multiple game lifecycles by managing milestones and task assignments, while serving as the central communicator to align asset design with programming tracks.

Result: Successfully completed the course with zero missed milestones, delivering stable and fully playable game submissions before the final deadline.

Final Project: “Jelo Handicrafts Store Website”

WS101 – Web Systems and Technology 1 | Pamantasan ng Lungsod ng Valenzuela | January – May 2025

Role: UI Designer, Documentation Lead

- Designed a responsive crochet e-commerce website layout and visual wireframes to improve product visibility and streamline ordering.

Result: Achieved a 90% user satisfaction rate based on final project evaluation surveys.

Publication and Organizational Materials

PLV-Virulent Tigers Haud Ka’Bu | August 2024 – Present

Role: Creatives Officer

- Designed digital publication materials and graphics for the organization's official Facebook page and internal events.

Result: Developed a strong eye for visual spacing and layout alignment, directly utilizing this skill to audit user interfaces for visual flaws.
